PROFESSIONAL SUMMARY

Final year Bachelor of Technology student specializing in Cybersecurity and Forensics with hands-on experience in vulnerability assessment, network security, and security monitoring. Skilled in SIEM platforms, OWASP Top 10, Networking, Incident Response, and SSDLC. Understanding of Docker, Kubernetes, Microservices, and CI/CD. Passionate about penetration testing, threat detection, and application security.

TECHNICAL SKILLS

Security Tools: Burp Suite • Nmap • Splunk • Wireshark • Metasploit • SIEM

Frameworks: OWASP Top 10 • MITRE ATT&CK • Cyber kill chain • SSDLC

Programming: Python • Bash Scripting • JavaScript

Operating Systems: Kali Linux • Windows

Domains: Application Security • Vulnerability Assessment • Penetration Testing • Microservices Architecture • Log Analysis • Threat Detection

EDUCATION

Bachelor of Technology in Cybersecurity & Forensics | MIT School of Computing, Pune

2022 – 2026

Relevant Coursework: Vulnerability Analysis & Penetration Testing, Bio-Metrics Security, Cloud Security, Reverse Engineering & Malware Analysis

EXPERIENCE

Visual Communication Intern | J P Extrusiontech Pvt. Ltd | Remote

06/2025 – 12/2025

- Designed and developed the company website to enhance online presence, improve user experience, and strengthen digital branding.
- Created professional product catalogues and marketing materials aligned with brand identity and business requirements.

Freelancing | Margrets Beauty Bar | Remote

Ongoing

- Collaborated asynchronously across US and Mexican time zones, managing remote client communications, feedback cycles, and delivery timelines for two concurrent international website projects.

PROJECTS

Web Vulnerability Scanner

- Developed a CLI-based Python tool to perform automated web crawling and targeted SQL injection (SQLi) attacks on web applications.
- Implemented detection for common vulnerabilities including Cross-Site Scripting (XSS) and SQL Injection (SQLi) through HTTP analysis and attack surface discovery.
- Gained practical experience in Web Application Security Testing (WAST), vulnerability assessment methodology, and Python automation.

SOC Dashboard — Splunk Enterprise

- Designed a custom SSH monitoring dashboard in Splunk Enterprise for real-time log ingestion, analysis, and threat visualization.
- Implemented SPL queries for failed login detection, source IP tracking, and dashboard-based threat detection to support SOC analyst workflows.
- Developed hands-on competency in SIEM operations, log management, security metrics reporting, and dashboard-driven visibility into key application security indicators.

IP Look-Up Tool

- Built a Python-based IP geolocation and SSL certificate lookup tool that fetches country, city, ISP, coordinates, and certificate details via API integration.
- Applied IP validation, DNS resolution, and networking concepts to enhance cybersecurity investigation and Python automation capabilities.

Personal Portfolio Website

- Designed and developed a responsive portfolio website showcasing cybersecurity projects, certifications, and technical skills using modern web development technologies.

CERTIFICATIONS

- Cisco Certified Support Technician Cybersecurity (CCST Cybersecurity) — Cisco
- Foundations of Cybersecurity — Google
- Cyber Threat Management — Cisco
- Hands-on Introduction to Linux Commands and Shell Scripting — IBM
- Ethical Hacking with Kali Linux — IBM

ACHIEVEMENTS & LEADERSHIP

- Best Project Award at MIT ADT IdeaSpark'24 for innovative project development and creative problem-solving among competing student teams.
- Disciplinary Co-Head, MIT ADT ACES Club: Led event discipline, managed teams, and ensured seamless execution of large-scale college activities.
- 2nd Place in Badminton at the 47th and 50th Foundation Day Competitions, Dr. Balasaheb Sawant Konkan Krushi Vidyapeeth, Dapoli.
